SUBJECT INDEX TO VOLUME 95

ABNORMALITIES and deformities, congenital, Treatment of complete unilateral harelips, 17; congenital, Surgical treatment for idiopathic, megacolon (Hirschsprung's disease), 201; congenital, Treatment of certain, malformations of heart by creation of pulmonic stenosis to reduce pulmonary hypertension and excessive pulmonary blood flow, preliminary report, 213; Congenital, malformations of rectum and anus—II, associated anomalies encountered in series of 120 cases, 281; Congenital, hernia of diaphragm with special reference to right-sided hernia of liver and intestines, 293; Congenital, duplications of small intestine, report of 11 cases, 557; congenital, Intestinal obstruction in newborn associated with faulty development of the midgut and its mesentery, description of 3 cases, 568; congenital, Treatment of imperforate anus and associated fistulas, 601; congenital, Pectus exacavatum, report of 8 cases with surgical correction, 615; congenital, Surgery in premature babies, observations from 159 cases, 631

Abscess, Subdural, purulent collection, 623

ACTH and cortisone, "Emergency" splenectomy, ed. 521

Adenocarcinoma, see Cancer

Adhesions, Acute adhesive ileus, study of 412 cases with particular reference to abuse of tube decompression in treatment, 472

Adolescents, tuberculosis in, Resection for pulmonary, children and, 751

Adrenals, secretion, Neuroendocrine control of water and electrolyte excretion during surgical anesthesia, 142

Allergy, Relationship of postcholecystectomy disturbances to bacterial sensitivity, 439

American College of Surgeons, Clinical Congress, Preliminary program for 38th, Waldorf-Astoria, New York, September 22 to 26, 1952, 253; 378

Anatomy, Bronchial arteries and their connections with other vessels in human lung, 741

Anemia, hemolytic, "Emergency" splenectomy, ed. 521

Anesthesia, Neuroendocrine control of water and electrolyte excretion during surgical, 142; Hypotensive spinal, 331

Aneurysm, intracranial, Surgical treatment of, 701

Anus, New approach for excision of carcinoma of lower portion of rectum and anal canal, 229; Congenital malformations of rectum and, II, associated anomalies encountered in series of 120 cases, 281; anomalies, Imperforate, and associated fistulas, 601

Aorta, Thrombosis of terminal, 505

Army, U.S., medicine, B. J. D. Irwin, fighting doctor, biographical sketch, 372

Arteries, Cervical and intracranial, intra-arterial pressures with and without vascular occlusion, 67; pulmonary, Treatment of certain congenital malformations of heart by creation of pulmonic stenosis to reduce, hypertension and excessive, blood flow, preliminary report, 213; Hepatic, ed. 644; carotid, Surgical treatment of intracranial aneurysm, 701; bronchial, pulmonary, Bronchial, and their connections with other vessels in human lung, 741; pulmonary, Heart-lung by-pass using pumps and isolated homologous lungs, 762

Arytenoidectomy, Intralaryngeal, in bilateral abductor vocal cord paralysis, 63

Ascorbic acid, content, in surgical patients with particular reference to their blood buffy layer—I, survey of blood and tissues, 274

Atom bomb, injuries, Scars remaining in, survivors, 4 year follow-up study, 129

BACTERIAL sensitivity, Relationship of postcholecystectomy disturbances to, 439

Bacteriologic examination, of tissue, ed. 519

Bile duct, common, Obstruction of, viscosity studies, 93; Common, exploration for stones, 431

Biopsy, Value of fresh frozen sections, ed. 366

Blood, Preservation, of whole ACD, collected, stored, and transfused in plastic equipment, 113; circulation, Treatment of certain congenital malformations of heart by creation of pulmonic stenosis to reduce pulmonary hypertension and excessive pulmonary, flow, preliminary report, 213; coagulation, Value and significance of, studies, ed. 244; Ascorbic acid, in surgical patients with particular reference to their, buffy layer—I, survey of, and tissues, 274; hepatic, Liver, flow, glucose production, and splanchnic oxygen consumption in normal dogs and following Eck fistula, liver, before and after splenectomy, 401; cells, In vivo effects of Clostridium welchii lecithinase, 465; peripheral circulation, Thrombosis of terminal aorta, 505; "Emergency" splenectomy, ed. 521; volume, expansion produced by gelatin, serum albumin, and plasma, 657; plasma, Effect of tissue damage on, fibrinogen level, 661; coagulation, Prothrombin in newborn, 671; coagulation, Fibrinolysis in surgery patients—I, possible relationship to hemorrhagic diathesis, 717; circulation, Heart-lung by-pass using pumps and isolated homologous lungs, 762

Blood pressure, intracranial intravascular, Cervical and intracranial intra-arterial pressures with and without vascular occlusion, 67; low, Hypotensive spinal anesthesia, 331

Blood transfusion, Use of plastic intravenous catheter for multiple and massive, and prolonged intravenous fluid therapy, 775

Body composition, Further observations on total body water—I, normal values throughout life span, 1; in disease, Further observations on total body water—II, changes of, 155

Bone, growth, Effect of increasing tensions on, of epiphyseal, 694

Book Shelf, Whimsy of single case report, 123; B. J. D. Irwin, fighting doctor, biographical sketch, 372; Sour grapes of Valmy, 647

Brain, injuries, pressure, Dangers of jugular compression (Queckenstedt test), ed. 122; Subdural purulent collections, 623; Surgical treatment of intracranial aneurysm, 701

Breast, Secretory disease and plasma cell mastitis in female, roentgenologic and pathologic studies, 497

Burns, Scars remaining in atom bomb survivors, 4 year follow-up study, 129; Horizons in, surgery, ed. 642

CANCER, Primary carcinoma of vagina, 51; gastric, Clinical and pathological study of significance of malignant pyloric obstruction on postresection prognosis, 85; Gastric, carcinoma, statistical study based on 344 cases from 1938 through 1947, 99; of pancreas, Technical considerations in resection of head of, 181; Partial hepatectomy, presentation of 4 cases and discussion of technique, 191; Carcinoma of rectum in female, effect of vaginal invasion on prognosis, 220; New approach for excision of carcinoma of lower

portion of rectum and anal canal, 229; Local recurrence following subtotal resection for gastric carcinoma, 341; Value of fresh frozen sections, ed. 366; Treatment of carcinoma of cervix uteri, 552; Carcinoma arising in scars of thermal burns, with special reference to influence of age at burn on length of induction period, 579; Evaluation of cytologic diagnosis of gastric, 709; Hypogastric venous plexuses about sciatic nerve in extended pelvic node excision and pelvic exenteration, ed. 773
Capillaries, fragility and menstruation, 13
Carcinoma, see Cancer
Case report, Whimsy of single, 123
Catheter, plastic, Use of, intravenous, for multiple and massive transfusions and prolonged intravenous fluid therapy, 775
Cecostomy, Comparison of, and transverse colostomy in complete colon obstruction, 410
Cerebrospinal fluid, Dangers of jugular compression (Queckenstedt test), ed. 122
Chest, Pectus excavatum, report of 8 cases with surgical correction, 615
Children, tuberculosis in, Resection for pulmonary, and adolescents, 751
Cholecystectomy, Common duct exploration for stones, 431; postoperative syndrome, Relationship of, disturbances to bacterial sensitivity, 439
Cholecystitis, Management of acute, 59
Choledochotomy, Common duct exploration for stones, 431
Clostridium, welchii, In vivo effects of, lecithinase, 465
Cold, injuries, Further studies on pathogenesis of, induced muscle necrosis, 543
Colon, Surgical treatment for idiopathic congenital megacolon (Hirschsprung's disease), 201; Comparison of cecostomy and transverse colostomy in complete, obstruction, 410; dilatation, Indications for colostomy in patients with Hirschsprung's disease, 738
Cortisone, Inhibitory effect of, on strictures of urological tract, 446
Cytology, Evaluation of cytologic diagnosis of gastric cancer, 709

DECORTICATION, of lung, Pulmonary function before and at intervals after surgical, 477
Dextran, Blood volume expansion produced by gelatin, serum albumin, and plasma, 657
Diagnosis, surgical, Laboratory aids in, ed. 243; differential, Value of fresh frozen sections, ed. 366
Diaphragm, Congenital hernia of, with special reference to right-sided hernia of liver and intestines, 293; Repair of, defects with cutis grafts, experimental study, 308
Diathesis, hemorrhagic, Fibrinolysis in surgery patients—I, possible relationship to, 717
Disability, Need for adequate aftercare in complete rehabilitation of disabled, 317
Dura mater, Subdural purulent collections, 623

ECK fistula, Liver blood flow, hepatic glucose production, and splanchnic oxygen consumption in normal dogs and following, liver blood flow before and after splenectomy, 401; Technique and effects of portacaval anastomosis, 407
Education, surgical, Undergraduate teaching in surgery, ed. 772
Elbow, flail, Restoration of flexor power to, by transplantation of triceps tendon, 685
Electrolytes, Neuroendocrine control of water and, excretion during surgical anesthesia, 142
Embolism, mesenteric, Venous, occlusion in course of migrating thrombophlebitis, 665
Endocrine glands, Neuroendocrine control of water and electrolyte excretion during surgical anesthesia, 142
Esophagus, rupture, Spontaneous, of, experimental and clinical study, 345
Explosion, atom bomb, Scars remaining in, survivors, 4 year follow-up study, 129

FAT content, Further observations on total body water—I, normal values throughout life span, 1
Femur, Posterolateral approach in surgical management of basilar neck, intertrochanteric and subtrochanteric fractures of, report of its use in 36 acute, 45
Fibrinogen, plasma, Effect of tissue damage on, level, 661
Fibrinolysis, in surgery patients—I, possible relationship to hemorrhagic diathesis, 717
Fistula, pancreatic, Effects of vagotomy on, secretion in dogs with chronic, 529; Treatment of imperforate anus and associated fistulas, 601
Fluids, body, Neuroendocrine control of water and electrolyte excretion during surgical anesthesia, 142; intravenous, Use of plastic, catheter for multiple and massive transfusions and prolonged, therapy, 775
Fluorescence, Vulvar, in normal and abnormal pregnancy, 677
Foreign body reaction, Reappraisal of absorbable glove powder, 725
Fractures, Posterolateral approach in surgical management of basilar neck, intertrochanteric and subtrochanteric, of femur, report of its use in 36 acute, 45; Results of treatment of fractured mandibles by Anderson splint, 289
Frostbite, high altitude, Prophylactic and therapeutic value of hydergine in, 423

GALLBLADDER, Management of acute cholecystitis, 59; Relationship of postcholecystectomy disturbances to bacterial sensitivity, 439; calculi, Common duct exploration for stones, 431
Gastrectomy, subtotal, Local recurrence following, resection for gastric carcinoma, 341
Gelatin, Blood volume expansion produced by, serum albumin, and plasma, 657
Glove powder, Reappraisal of absorbable, 725
Glucose production, hepatic, Liver blood flow, and splanchnic oxygen consumption in normal dogs and following Eck fistula, before and after splenectomy, 401
Grafts, cutis, Repair of diaphragmatic defects with, experimental study, 308

HARELIP, Treatment of complete unilateral, 17
Heart, disease, Surgical risk of patients with, ed. 120; Treatment of certain congenital malformations of, by creation of pulmonic stenosis to reduce pulmonary hypertension and excessive pulmonary blood flow, preliminary report, 213; valves, mitral, surgery, critical analysis, 689; lung by-pass using pumps and isolated homologous lungs, 762
Hemangiomas, arterial, Treatment and repair of defects, report of minimal radiation dosage and of multiple suture procedure, 33
Hemodynamics, Mitral valve surgery, critical analysis, 689
Hemoglobin, Hematologic response of pregnant woman to intravenous saccharated iron oxide, cor. 252
Hemorrhage, Management of ectopic pregnancy with massive intraperitoneal, and shock, 149; Value and significance of blood coagulation studies, ed. 244; Retroperitoneal, complicating pregnancy, 512; Fibrinolysis in surgery patients—I, possible relationship to, diathesis, 717

Hepatectomy, Partial, presentation of 4 cases and discussion of technique, 191
Hernia, Congenital, of diaphragm with special reference to right-sided, of liver and intestines, 293
Hidradenitis suppurativa, Surgical treatment of chronic, 455
Hip, Experiences with, prostheses, 416
Hirschsprung's disease, Surgical treatment for idiopathic congenital megacolon, 201; Indications for colostomy in patients with, 738
Hydergine, Prophylactic and therapeutic value of, in high altitude frostbite, 423
Hypertension, pulmonary, Treatment of certain congenital malformations of heart by creation of pulmonic stenosis to reduce, and excessive, blood flow, preliminary report, 213
Hypothalamus, Neuroendocrine control of water and electrolyte excretion during surgical anesthesia, 142

ILEOSTOMY, Advantages of stab wound, 28
Ileus, Acute adhesive, study of 412 cases with particular reference to abuse of tube decompression in treatment, 472
Industry, injuries, Need for adequate aftercare in complete rehabilitation of disabled, 317
Infants, newborn, Intestinal obstruction in, associated with faulty development of midgut and its mesentery, description of 3 cases, 568; premature, Surgery in, babies, observations from 159 cases, 631; newborn, Prothrombin in, 671
Infection, chronic, Bacteriologic examination of tissue, ed. 519
Instruments and apparatus, Sanborn electromanometer, Cervical and intracranial intra-arterial pressures with and without vascular occlusion, 67; plastic equipment for collecting, storing, and infusing blood, Preservation of whole ACD, 113; Anderson splint, Results of treatment of fractured mandibles by, 289; Judet, McBride hip prostheses, Experiences with hip prostheses, 416; tube device, aid in cutting sphincter of Oddi, Split, solid, tube-like catheter to, transduodenally, 524; tension device, Effect of increasing, on growth of epiphyseal bone, 694; Heart-lung by-pass, using pumps and isolated homologous lungs, 762; plastic intravenous catheter, Use of, for multiple and massive transfusions and prolonged intravenous fluid therapy, 775
Intestines, Advantages of stab wound ileostomy, 28; Lymphosarcoma of small, 76; Congenital hernia of diaphragm with special reference to right-sided hernia of liver and, 293; obstruction, Comparison of cecostomy and transverse colostomy in complete colon, 410; obstruction, Acute adhesive ileus; study of 412 cases with particular reference to abuse of tube decompression in treatment, 472; duplication, Congenital, of small, report of 11 cases, 557; obstruction, Intestinal, in newborn associated with faulty development of midgut and its mesentery, description of 3 cases, 568
Intubation, intestinal, Acute adhesive ileus, study of 412 cases with particular reference to abuse of tube decompression in treatment, 472
Iron oxide, Hematologic response of pregnant woman to intravenous saccharated, correction, cor. 252
Irwin, B. J. D., fighting doctor, biographical sketch, 372

JAW, Results of treatment of fractured mandibles by Anderson splint, 289

KELOID, Scars remaining in atom bomb survivors, 4 year follow-up study, 129
Kidney, Neuroendocrine control of water and electrolyte excretion during surgical anesthesia, 142; Observations upon absorption of urinary constituents after ureterosigmoidostomy, importance of renal damage, 589

LABOR, complications, Inefficient uterine action, 257
Laboratory aids, in surgical diagnosis, ed. 243; Value and significance of blood coagulation studies, ed. 244; Value of fresh frozen sections, ed. 366; Significance of urine examination, ed. 369; Bacteriologic examination of tissue, ed. 519
Larynx, paralysis, Intralaryngeal arytenoidectomy in bilateral abductor vocal cord paralysis, 63
Lecithinase, In vivo effects of Clostridium welchii, 465
Leg, blood supply, Distribution of valves in femoral, external iliac, and common iliac veins and their relationship to varicose veins, 537
Lip, Treatment of complete unilateral harelips, 17
Liver, Partial hepatectomy, presentation of 4 cases and discussion of technique, 191; Congenital hernia of the diaphragm with special reference to right-sided hernia of, and intestines, 293, blood flow, hepatic glucose production, and splanchnic oxygen consumption in normal dogs and following Eck fistula, before and after splenectomy, 401; blood supply, Hepatic artery, ed. 644
Lumbar puncture, Dangers of jugular compression (Queckenstedt test), ed. 122
Lung, Pulmonary function before and at intervals after surgical decortication of, 477; blood vessels of, Bronchial arteries and their connections with other vessels in human, 741; surgery, Resection for pulmonary tuberculosis in children and adolescents, 751; Heart-, by-pass using pumps and isolated homologous, 762
Lymph nodes, Hypogastric venous plexuses about sciatic nerve in extended pelvic node excision and pelvic exenteration, ed. 773
Lymphatic system, Local recurrence following subtotal resection for gastric carcinoma, 341
Lymphosarcoma, of small intestine, 76

MANDIBLE, see Jaw
Mastitis, plasma cell, Secretory disease and, in female breast, roentgenologic and pathologic studies, 497
Medicine, history, B. J. D. Irwin, fighting doctor, biographical sketch, 372; Sour grapes of Valmy, 647
Megacolon, Surgical treatment for idiopathic congenital (Hirschsprung's disease), 201
Melanin, Melanoma, study of 222 cases, 184
Melanoma, see Tumor
Menstruation, Capillary fragility and, 13
Metabolism, Further observations on total body water—I, normal values throughout life span, 1; II, changes of body composition in disease, 155
Mitral valve, surgery, critical analysis, 689
Muscle, necrosis, Further studies on pathogenesis of cold-induced, 543; triceps, Restoration of flexor power to flail elbow by transplantation of, tendon, 685

NECROSIS, Further studies on pathogenesis of cold-induced muscle, 543
Nerves, laryngeal, Intralaryngeal arytenoidectomy in bilateral abductor vocal cord paralysis, 63; sciatic, Hypogastric venous plexuses about, in extended pelvic node excision and pelvic exenteration, ed. 773
Nevus, Melanoma, study of 222 cases, 184

Nitrogen, balance, Further observations on total body water—II, changes of body composition in disease, 155
Nose, Treatment of complete unilateral harelips, 17

OKABAYASHI operation, Treatment of carcinoma of cervix uteri, 552
Oxygen, consumption, splanchnic, Liver blood flow, hepatic glucose production, and, in normal dogs and following Eck fistula, liver blood flow before and after splenectomy, 401; Heart-lung by-pass using pumps and isolated homologous lungs, 762

PALATE, cleft, Treatment of complete unilateral harelips, 17
Pancreas, Technical considerations in resection of head of, 181; secretion, Effects of vagotomy on pancreatic, in dogs with chronic pancreatic fistula, 529
Papilledema, Dangers of jugular compression (Queckenstedt test), ed. 122
Paralysis, vocal cord, Intralaryngeal arytenoidectomy in bilateral abductor, 63
Pectus excavatum, report of 8 cases with surgical correction, 615
Pelvic plexus, Hypogastric venous, about sciatic nerve in extended, node excision and, exenteration, ed. 773
Pelvis, cancer, Hypogastric venous plexuses about the sciatic nerve in extended pelvic node excision and pelvic exenteration, ed. 773
Phylogeny, Phylogenetic study of recurrent anterior dislocation of shoulder joint, 357
Plasma, Blood volume expansion produced by gelatin, serum albumin, and plasma, 657
Portal vein, Technique and effects of portacaval anastomosis (Eck fistula), 407
Potassium deficiency, Diagnosis, treatment, and prophylaxis of, in surgical patients, analysis of 404 cases, 321
Pregnancy, ectopic, Management of, with massive intraperitoneal hemorrhage and shock, 149; Hematologic response of pregnant woman to intravenous saccharated iron oxide, cor. 252; Surgical treatment of varicose veins in, 336; Retroperitoneal hemorrhage complicating, 512; Vulvar fluorescence in normal and abnormal, 677
Prosthesis, Experiences with hip, 416
Prothrombin, Value and significance of blood coagulation studies, ed. 244; in newborn, 671
Pulmonary function, before and at intervals after surgical decortication of lung, 477
Pylorus, obstruction, Clinical and pathological study of significance of malignant pyloric, on postresection prognosis, 85

QUECKENSTEDT test, Dangers of jugular compression, ed. 122

RADIATION, illness, Scars remaining in atom bomb survivors, 4 year follow-up study, 129; therapy, Treatment of carcinoma of cervix uteri, 552
Radium, therapy, hemangiomas, Treatment and repair of defects, report of minimal radiation dosage and of multiple suture procedure, 33
Rectum, Carcinoma of, in female, effect of vaginal invasion on prognosis, 220; New approach for excision of carcinoma of lower portion of, and anal canal, 229; Congenital malformations of, and anus—II, associated anomalies encountered in series of 120 cases, 281; anomalies, Treatment of imperforate anus and associated fistulas, 601
Rehabilitation, complete, Need for adequate aftercare in, of disabled, 317

SCARS, remaining in atom bomb survivors, 4 year follow-up study, 129; of thermal burns, Carcinoma arising in, with special reference to influence of age at burn on length of induction period, 579
Secretory disease, and plasma cell mastitis in female breast, roentgenologic and pathologic studies, 497
Sections, frozen, Value of fresh, ed. 366
Serum albumin, Blood volume expansion produced by gelatin, and plasma, 657
Shock, Management of ectopic pregnancy with massive intraperitoneal hemorrhage and, 149; burn, Horizons in, surgery, ed. 642
Shoulder, dislocation of, Phylogenetic study of recurrent anterior, joint, 357
Sigmoid, Observations upon absorption of urinary constituents after ureterosigmoidostomy, importance of renal damage, 589
Sphincter of Oddi, Split, solid, tube-like catheter to aid in cutting, transduodenally, 524
Spleen, "Emergency" splenectomy, ed. 521
Splenectomy, Liver blood flow, hepatic glucose production, and splanchnic oxygen consumption in normal dogs and following Eck fistula, liver blood flow before and after, 401; "Emergency," ed. 521
Splint, Anderson, Results of treatment of fractured mandibles by, 289
Starch powder, Reappraisal of absorbable glove powder, 725
Stenosis, pulmonic, Treatment of certain congenital malformations of heart by creation of, to reduce pulmonary hypertension and excessive pulmonary blood flow, preliminary report, 213
Stomach, cancer, Clinical and pathological study of significance of malignant pyloric obstruction on postresection prognosis, 85; carcinoma of, Gastric, statistical study based on 344 cases from 1938 through 1947, 99; Local recurrence following subtotal resection for gastric carcinoma, 341; Evaluation of cytologic diagnosis of gastric cancer, 709
Surgeon at Work, Split, solid, tube-like catheter to aid in cutting sphincter of Oddi transduodenally, 524; Use of plastic intravenous catheter for multiple and massive transfusions and prolonged intravenous fluid therapy, 775
Surgery, plastic, Treatment of complete unilateral harelips, 17; plastic, Hemangiomas, treatment and repair of defects, report of minimal radiation dosage and of multiple suture procedure, 33; risk, of patients with heart disease, ed. 120; technique, Technical consideration in resection of head of pancreas, 181; technique, Partial hepatectomy, presentation of 4 cases and discussion of, 191; diagnosis, Laboratory aids in, ed. 243; plastic, Congenital hernia of diaphragm with special reference to right-sided hernia of liver and intestines, 293; plastic, Repair of diaphragmatic defects with cutis grafts, experimental study, 308; preoperative and postoperative care, Diagnosis, treatment, and prophylaxis of potassium deficiency in surgical patients, analysis of 404 cases, 321; technique, New, in primary tendon repair, 597; in premature babies, observations made from study of 159 cases, 631; hemorrhagic diathesis, Fibrinolysis in surgical patients—I, possible relationship to, 717; teaching, Undergraduate, in, ed. 772
Sutures, barb wire, New technique in primary tendon repair, 597
Sweat glands, apocrine, Surgical treatment of chronic hidradenitis suppurativa, 455
Sympathectomy, lumbar, Thrombosis of terminal aorta, 505

TENDON, surgery, New technique in primary, repair, 597; transplantation, Restoration of flexor power to flail elbow by, of triceps, 685

Tibia, Effect of increasing tensions on growth of epiphyseal bone, 694
Tissues, Ascorbic acid, in surgical patients with particular reference to their blood buffy layer—I, Survey of blood and, 274; sections, Value of fresh frozen, ed. 366; Bacteriologic examination of, ed. 519; injury, Effect of, damage on plasma fibrinogen level, 661
Tube decompression, Acute adhesive ileus, study of 412 cases with particular reference to abuse of, in treatment, 472
Tuberculosis, pulmonary, Resection for, in children and adolescents, 751
Tumor, Hemangiomas, Treatment and repair of defects, report of minimal radiation dosage and of multiple suture procedure, 33; Melanoma, study of 222 cases, 184

ULTRAVIOLET light, Vulvar fluorescence in normal and abnormal pregnancy, 677
Ureter, stricture, Inhibitory effect of cortisone on, of urological tract, 446; Observations upon absorption of urinary constituents after ureterosigmoidostomy, importance of renal damage, 589
Ureterosigmoidostomy, Observations upon absorption of urinary constituents after, importance of renal damage, 589
Urethra, stricture, Inhibitory effect of cortisone on, of urological tract, 446
Urinary tract, Inhibitory effect of cortisone on strictures of, 446
Urine, examination, Significance of, ed. 369; Observations upon absorption of urinary constituents after ureterosigmoidostomy, importance of renal damage, 589
Uterus, action, Inefficient uterine, 257
Uterus cervix, carcinoma of, Treatment of, 552

VAGINA, Primary carcinoma of, 51; Carcinoma of rectum in female, effect of vaginal invasion on prognosis, 220
Vagotomy, Effect of, on pancreatic secretion in dogs with chronic pancreatic fistula, 529
Valmy, Battle of, Sour grapes of, 647
Valves, Distribution of, in femoral, external iliac, and common iliac veins and their relationship to varicose veins, 537
Varicose veins, surgery, Surgical treatment of, in pregnancy, 336; Distribution of valves in femoral, external iliac, and common iliac veins and their relationship to, 537
Vein, jugular, compression, Dangers of, (Queckenstedt test), ed. 122; femoral, iliac, valves in anatomy, Distribution of valves in femoral, external iliac, and common iliac, and their relationship to varicose, 537; mesenteric, Venous, occlusion in course of migrating thrombophlebitis, 665
Vena cava, Technique and effects of portacaval anastomosis (Eck fistula), 407
Viscosity study, Obstruction of common bile duct, 93
Vulva, Fluorescence of, in normal and abnormal pregnancy, 677

WATER, total body, Further observations on—I, normal values throughout life span, 1; excretion, Neuroendocrine control of, and electrolyte excretion during surgical anesthesia, 142; total body, Further observations on—II, Changes of body composition in disease, 155
Wounds, Atomic bomb, Scars remaining in, survivors, 4 year follow-up study, 129; healing, Ascorbic acid in surgical patients with particular reference to their blood buffy layer—I, survey of blood and tissues, 274; burn, treatment, Horizons in burn surgery, ed. 642
